SUMMARY

Recent Engineering graduate with a strong foundation in frontend and backend technologies. and enthusiastic entry-level full stack developer with hands-on experience in building scalable applications.

EDUCATION

CENTER FOR DEVELOPMENT OF ADVANCED COMPUTING

HYDERABAD, INDIA

Post Graduate Diploma in Advanced Computing 60%

Feb 2024

M. S. BIDVE ENGINEERING COLLEGE

LATUR, INDIA

Bachelor of Engineering in Mechanical Engineering 77%

May 2021

SKILLS & COMPETENCIES

Front-end Technologies: HTML, CSS, JavaScript, SCSS, ReactJS, TailwindCSS, Material UI, Bootstrap.

Back-end Technologies: Python, Django, Flask, FastAPI, ORM, REST API, DSA, OOP, Java, SQL.

Databases: PostgreSQL, MongoDB, MySQL, SQLite, SQLAlchemy.

Development & Operations: Git, Docker, Kubernetes, CI/CD Jenkins, Linux, Jira, Unit Testing, Postman, Selenium.

PROJECTS

KVR Bank (Personal) | Full Stack Developer | Django, ReactJS, Docker, PostgreSQL, TailwindCSS | [Link](#)

- Developed a secure and scalable banking web application enabling users to manage accounts, transfer funds, and view transaction history in real-time. Utilized technologies such as React and Django to build interactive front-end interfaces and robust back-end services.

Blog (Personal) | Full Stack Developer | Django, ReactJS, Docker, PostgreSQL, CSS | [Link](#)

- Designed and developed a blogging web application to enable users to create, edit, and share posts.

Quick News (Personal) | Full Stack Developer | Flask, News API, Docker, SCSS, Bootstrap | [Link](#)

- Developed a news web application that aggregates and categorizes real-time articles from News API source.
- Implemented features such as search functionality, topic-based filters, and personalized news feeds.

Task Manager (Personal) | Full Stack Developer | Flask, Docker, HTML, CSS, SQLAlchemy | [Link](#)

- Designed and developed a task manager web application enabling users to organize and track tasks.

SoftLab (Personal) | Full Stack Developer | Django, React.js, Material UI, Docker, PostgreSQL | [Link](#)

- Developed a single-page web application for a firm to enhance client engagement and project monitoring.
- Utilized React to create a dynamic and seamless user interface, backed by Django for efficient data management.

The Event Manager (Academic) | Backend Developer | ReactJS, Spring Boot, MySQL | [Link](#)

- Developed an event management web application to simplify the planning and organization of events.
- Designed a user-friendly and responsive interface to enhance accessibility across devices. Implemented secure user authentication and real-time notifications to streamline communication and improve user engagement.
